Adopt-A-Stream

Volume 7, Number 2, March / April 2000
Michele Droszcz and Harold Harbert, Editors

What's New With Georgia Adopt-A-Stream?

You may have noticed that things continue to change within our program. The most obvious, for those who receive the newsletter, is that we got rid of the fish graphics and added some macroinvertebrates! We also moved our "Calendar of Events" to the third page, since the number of AAS workshops being offered keeps growing.

This year, the State AAS office is offering "specialty workshops" throughout the year. These workshops were listed in the January / February newsletter. These workshops offer more thorough information on topics that are discussed in the regular chemical and biological AAS workshops.

With all these specialty workshops, who has time to conduct the QA/QC chemical and biological workshops? Citizens of various counties and cities are very lucky to have local Adopt-A-Stream coordinators. At this time, there are 37 local coordinators who are funded through counties, cities or watershed organizations. Most of these coordinators have become Adopt-A-Stream trainers and conduct workshops in their area. In addition, there are four Adopt-A-Stream Regional Training Centers in State colleges and universities throughout the State. All the contact numbers are listed on page 3 of the newsletter.

The next big piece of news is that the "Level I / Getting Started With Adopt-A-Stream" manual will soon be replaced with the new manual, "Getting To Know Your Watershed." This manual contains the new registration form, watershed survey data forms and stream survey data forms. Except for the stream survey forms, the new manual and forms address streams, wetlands and lakes. Our new workshop "Getting Started With Adopt-A-Stream, Wetland and Lake" uses the new manual and takes you through the steps of registering, working with maps, and conducting the watershed survey.

As you will notice on the next two pages of this newsletter, there are many water-related conferences and workshops being held. Since Adopt-A-Stream participates in most of these events, we realize that there are plenty of conferences and workshops available to provide citizens with fantastic information on water quality, watersheds and outreach education. Therefore, Georgia Adopt-A-Stream had decided not to organize a conference but to put all its efforts into a big volunteer celebration! Please see the article on the back of this newsletter for more information.

We want to thank everyone who works to monitor and protect Georgia's streams, rivers, wetlands and lakes. Georgia Adopt-A-Stream continues to grow and we enjoy working with all the wonderful people.

Michele Droszcz and Harold Harbert, State Coordinators Georgia Adopt-A-Stream, and Petey Giroux, State Coordinator Project Wet

Happenings . . .

Farm*A*Syst / Home*A*Syst Watershed Planning Conference

EPA and the Farm*A*Syst / Home*A*Syst partners are having a conference on April 10 – 12 in Atlanta. This conference focuses on reaching farmers, ranchers and homeowners with the message of pollution prevention. For conference registration information, contact Lisa Ann McKinley at McKinley.Lisa@epamail.epa.gov.

Community Watershed Workshop: Atlanta's 14 County Preliminary Greenway Trail Configuration

The next Community Watershed Workshop will be held at Southface Energy Institute (located next to SciTrek and the Atlanta Civic Center) on Tuesday, March 14 from 6:00 pm until 8:00 pm. This workshop offers a fantastic opportunity to network and learn. For more information, call 404/675-1636.

Fundamentals of Erosion and Sediment Control Courses

April 12-14, on Jekyll Island

June 27-29, in Athens

November 27-29, in Athens

These courses are open to anyone interested in the Erosion and Sedimentation Law, Best Management Practices, and the NPDES storm water permitting process. They are sponsored by Georgia Soil & Water Conservation Commission and the UGA Center for Continuing Education. For more information, call 800-884-1381 or e-mail Register@gactr.uga.edu.

Citizen Soil Watch Workshops

Tuesday, March 30 at 7:00 pm at the Marietta Central Library

Tuesday, April 25 at 7:00 pm in Douglas County

This course may be for those folks who want to learn to effectively evaluate land-disturbing activities and learn the basics of the Erosion and Sedimentation Law but do not have the time to attend the 3-day course mentioned below. To register, call Dana Heil at 706/542-3065 or Alice Champagne at 404/352-9828 extension 16.

Protecting Lakes and Watersheds: Innovative Solutions to Point and Nonpoint Source Pollution

The Annual Southeastern Lakes Management Conference will be held in Columbus, GA March 22-25. The four concurrent tracks will focus on water quality, watersheds, technical issues and community outreach. There are also several half-day workshops and fabulous field trips. For complete information and registration forms, visit the website at <http://science.kennesaw.edu/~jdirnber/SELMC2000.html>

The Coastal Adopt-A-Stream and Wetland Regional Training Center Has A Website

If you are located in Coastal Georgia, you are lucky to have Dr. Joe Richardson as your AAS contact. He offers workshops, technical advice and monitoring guidance. To learn about upcoming events and other information, look to the new website at <http://www.savstate.edu/scitech/aas/index.htm>

Adopt-A-Stream Calendar of Events

The following are workshops, taught by certified AAS trainers, which provide training in visual, biological and chemical monitoring of streams and wetlands. Please call to register.

What	Who	When	Where	To Register
Advanced Chemical	GA AAS	March 11	Canton	404-675-1636
Biological	Fulton AAS	March 18	N. Fulton	404-730-8006
Visual/Chemical	Augusta AAS	March 18	Augusta	706-828-2109
Biological (same day)	Augusta AAS	March 18	Augusta	706-828-2109
Bio/Chem recert	GA College RTC	March 25	Milledgeville	706-485-9243
Visual/Chemical	Fulton AAS	April 1	S. Fulton	404-730-8006
Biological	Georgia Wildlife Federation	April 1	Covington	770-929-3350
Biological	Fulton AAS	April 8	Cochran Mill	404-730-8006
Reducing NPSP	GA AAS / P2AD	April 11	Atlanta	404-675-1636
Getting Started w/AAS	GA AAS/Rockdale Co.	April 15	Conyers	404-675-1636
Biological	Chattooga AAS	April 22	Polk/Floyd Co.	706-802-5322
Visual/Chemical	Georgia Wildlife Federation	April 25	Covington	770-929-3350

South GA	Dr. David Hedgepeth	912-333-5611	dhedgepe@valdosta.edu

Georgia Greenways 2000 Conference

The Georgia Wildlife Federation is sponsoring a one-day conference/workshop for greenway coordinators and citizens involved in preserving green space throughout Georgia. This will take place on Friday, May 5, 2000 at the new Alcovy Environmental Education Center, centrally located in Covington, Georgia.

Most greenways are inherently a locally driven initiative with little interaction with other greenways across the State. The purpose of this conference is to

bring everyone who cares about this issue together to share ideas and resources, to network, and to gain some practical tools to make their greenway efforts more successful.

The conference will cost \$10 and include lunch and materials. Pre-registration is required by April 26th. Contact Ellen Sutherland, the Alcovy River Greenway Coordinator, at 770-929-3350 or alcovy@gwf.org for more information and to pre-register, and stay tuned to their web site for more details (<http://www.gwf.org>).

Apalachee River and Georgia Adopt-A-Stream Volunteer Celebration!

Walton County Clean and Beautiful will host the Georgia Adopt-A-Stream volunteer recognition celebration this year on the Apalachee River! Universal Rundle, a Walton County based company, has donated funds to Walton County Clean and Beautiful towards the effort of educating the citizens of Walton and neighboring counties about water quality and, specifically, the Apalachee River. Walton County Clean and Beautiful wants to show off their beautiful river while educating local citizens about Adopt-A-Stream and the fantastic efforts citizens have accomplished throughout the State. So, they have invited Georgia Adopt-A-Stream to come celebrate our volunteers with food, music and fun on the banks of the Apalachee River, May 20, 2000.

If you are a member of an active Adopt-A-Stream group, your lead coordinator will be receiving additional information within the next two weeks. If, for some reason, you do not receive an invitation and wish to attend, please contact the state AAS office.

Reduce Nonpoint Source Pollution In Your Home

The Pollution Prevention Assistance Division (P2AD), along with Georgia Adopt-A-Stream, has developed a colorful and informative poster, which addresses how to reduce nonpoint source pollution in the home. P2AD is also designing a new brochure – similar to the poster but easier to carry in your back pocket. Come get a free poster and talk to the experts about how to reduce non point source pollution in your home on April 11 at 6:00 pm. This workshop will be held at the Tradeport, home to the EPD Water Protection Branch. To register, call Michele Droszcz at 404-675-1636.

The Georgia Adopt-A-Stream Newsletter is published six times per year. For More information about the Georgia Adopt-A-Stream program or to contribute to the newsletter, call or write to:
