CHEMICAL EQUIPMENT

Ben Meadows

1-800-241-5401 www.benmeadows.com

LaMotte Shallow Water Test Kit (code 225529)	\$257.50
Dissolved Oxygen Individual Kit (code 54183)	\$55.25
pH Individual Kit (code 221796)	\$41.60
Oakton Dual Range EC Tester 11 (code: 143448)	\$80.75
Salinity Refractometer RF20 (code 99716)	\$97.40
Secchi Disk, 20cm dia. (code 125046)	\$27.50

LaMotte Company

1-800-344-3100 www.lamotte.com

Thermometer (code 1066)	\$23.40
DO Water Sample Bottle (code 0688-DO)	\$5.48
pH test tube (code 0230)	\$3.16
DO Titration Tube (code 0608)	\$3.60
Titration (code 0377)	\$6.70

REPLACEMENT REAGENTS

Ben Meadows

1-800-241-5401 www.benmeadows.com

Shallow Water Kit Reagents (code 225534)	\$57.50
Dissolved Oxygen Kit Reagents (code 221789)	\$32.85
pH Kit reagent (code 221797)	\$10.90

LaMotte Company

1-800-344-3100 www.lamotte.com

Shallow Water Kit Reagents (code R-5854-01)	\$62.99
Dissolved Oxygen Kit Reagents (code R-5860)	\$35.45
pH Kit reagent (code 2218-G)	\$7.55
Manganous Sulfate (code 4167-G)	\$9.40
Alkaline Potassium Iodide Azide (code 7166-G)	\$12.40
Sulfuric Acid 1:1 (code 6141WT-G)	\$8.50
Thiosulfate (code 4169-H)	\$9.35
Starch Indicator (code 4170WT-G)	\$7.30

VWR International

1-800-932-5000 <https://www.vwr.com/>

*Conductivity Standard 250 $\mu\text{S}/\text{cm}$, 1 Liter (special order RC2236.60-32) \$40.46

*Note: purchasing/shipping for this item is restricted to commercial business use
(VWR will not send to individuals at residential addresses)

MACROINVERTEBRATE EQUIPMENT**Ben Meadows**

1-800-241-5401 www.benmeadows.com

D-Frame Net (code 224902)	\$77.65
Replacement D-Frame Net (code 224903)	\$25.05
Featherweight Forceps (code 301057)	\$8.35

BioQuip Products

310-667-8800 www.bioquip.com

D-frame net (code # 7412D)	\$59.85 - 1 x 1 feet
Kick seine net (code # 7436)	\$53.75 - 3 x 3 feet
Larval tray (code # 1426B)	\$15.60/dozen
Glass Vials with plastic Screw caps (code 8802P)	\$4.90/dozen

Note: Sorting trays can usually be found at your local grocery store or supercenter for a much lower price. Plastic syringes with large (or cut) openings are great for sucking up larvae to transport to other trays. Plastic spoons and pieces of window screen are handy tools for moving bugs from one tray to another. Ice trays work great for sorting specimens.
